## DIAGNOSIS CODES IN THE PROVIDER PORTAL (WELLPOINT)

There may be select times when you have a need to modify a diagnoses code. For example, if you notice that a diagnosis code associated with an authorization does not meet the required billing specificity, or isn't the diagnosis code that you've used historically for billing. Please use the following guide as a resource to find and modify a member's diagnosis code in the provider portal.

## WHERE TO FIND A MEMBER'S DIAGNOSIS CODE

From the Authorizations page, find the Member you wish to modify, and click on the **options menu** (three dots) at the far right of the row.

## **MODIFYING A MEMBER'S DIAGNOSIS CODE**

In the Authorization Details dialog box, look for the fields, 'Diagnosis Code 1' and 'Diagnosis Code 2'. 'Diagnosis Code 1' is the default code that is included the Authorization file.

**Diagnosis Code 2** is an editable field that the user can utilize to search for another (ICD-10) diagnosis code. To search for a second ICD-10 code, begin typing the code in that field, and the field automatically searches for it. Select the second Diagnosis Code and it will automatically be associated with that authorization.
