Electronic Visit Verification (EVV) Documentation and Implementation Release for Home Health Providers

Dear Providers,

We are writing to notify you that training materials and configuration options for the upcoming changes to Home Health Services (HHS) billed on institutional (837i) claims are now available. Each Iowa HHS provider must set these configuration options no later than **October 1, 2024**.

In collaboration with Iowa Total Care, Molina Healthcare of Iowa, Wellpoint Iowa, and CareBridge, Iowa Medicaid has made enhancements to the claiming process in response to your feedback.

Please review the [detailed information on the changes to Home Health Services 837i Claim Elements](#), the [training resources available](#), and [instructions on setting up your claim elements in the CareBridge EVV Provider portal](#).

This email was sent to you by the Iowa Department of Health and Human Services.
